

REACH Conformity / SVHC Compliance of our Products

Registration, Evaluation, Authorisation and Restriction of Chemicals (**REACH**) is a European Union regulation dating from 18 December 2006. **REACH** addresses the production and use of chemical substances, and their potential impacts on both human health and the environment.

With this **REACH** Certificate of Compliance document we certify that all products are compliant with the EU **REACH** regulation (EC).

<https://echa.europa.eu/de/candidate-list-table>

The European Chemical Agency (ECHA) has current and future substances identified as Substances of Very High Concern (**SVHC**). Once a substance is added to the **SVHC** Candidate List, the EU REACH Regulation imposes immediate obligations on manufacturers and importers to **declare** the substances if present.

A substance of very high concern (**SVHC**) is a chemical substance (or part of a group of chemical substances) for which it has been proposed that the use within the European Union be subject to authorisation under the REACH Regulation.

We herewith confirm that the products sold and distributed by us apply to be compliant with the REACH conformity and SVHC regulation as matters from today.
