

# KEYSTONE JACK CAT. 5e FCC-68 IP67

## 3180 SERIES. Keystone Jack Cat. 5e.

### General Features

- Available in 8/8 circuits
- Accept standard plugs FCC-68
- 50  $\mu$  Selective gold plating in contact area
- Maximum Panel thickness: 3.20 mm

### Materials

- Insulator: Thermoplastic UL 94V-0
- Contact: 0.40 mm thickness phosphor bronze
- Operating temperature: -40°C to +85°C
- Receptacle housing: Zinc alloy 3, nickel plated
- Panel nut: Alloy nickel plated. Panel Gasket: Silicone
- RoHS compliant

### Dimension Information

### Electrical Features

- Voltage rating: < 100V
- Current rating: < 1.50 A
- Contact resistance: < 20 m $\Omega$
- Dielectric withstanding Voltage: 1000 V AC/minute
- Insulation resistance: >500 M $\Omega$
- Meets EIA/TIA-568-B.2 Cat.5e Specification

### Mechanical Features

- Durability: 1000 Cycles

### Ordering Information:

**3180 - 7 - 88 - 1**
